

***DEPARTMENT OF MINES, MINERALS  
AND ENERGY***

**DIVISION OF MINES**

***MINE EMERGENCY  
DIRECTORY***

***January 2016***

***“Preparation and Emergency Response Capability  
Will Save Lives and Property”***

# PROCEDURE STATEMENT

**PURPOSE:** The Division of Mines (DM) Emergency Notification Directory has been prepared to assist with notification of key emergency response personnel. Any division representative upon learning of the occurrence or potential occurrence of a mine emergency must begin the notification process to enable effective and efficient response to assist in necessary rescue and/or recovery efforts. The safety and well being of mine personnel and property often will depend on the ability to notify and assemble needed resources to the site of the emergency.

**SCOPE:** This directory is intended to complement the DM rescue and recovery plan. It is divided into sections, which are numbered and identified in the index. The directory will be updated regularly as needed.

DM and DMME personnel who may be necessary to contact are listed in the directory. Other agencies, mine rescue teams, and emergency response resources are also listed.

**RESPONSIBILITY:** Any DM representative learning of a mine emergency or potential mine emergency should, without delay, begin the notification process outlined. It is important for the first DM person contacted to obtain information needed to assist in coordination of the appropriate response. Information forms are provided to assist in obtaining critical information.

## DM NOTIFICATION PROCESS

The DM representative receiving notification of a mine related emergency or potential emergency must obtain as much critical information as possible (as shown on the Notification of a Mine Related Emergency form). However, without delay, the DM representative should initiate the notification process as outlined in the Mine Incident Response, Rescue, and Recovery Plan.

The DM Emergency Response Team will activate and follow the established response plan. Should mine rescue teams be needed, the DM Emergency Response Team Leader or Emergency Response Coordinator will notify teams of the emergency and request their response.

The first DM Supervisor notified will contact the Chief and other DM Supervisors. The Supervisor assigned the mine affected by the emergency will **respond without delay** to the scene. The other DM Supervisors will coordinate notification of all other DM personnel necessary to respond to the emergency.

The Chief will notify the DMME Deputy Director and coordinate notification of any other DMME or emergency personnel.

# NOTIFICATION OF A MINE RELATED EMERGENCY

The following information should be obtained by any DM representative at the time they are notified of an emergency:

1. Date and time of notification: \_\_\_\_\_

2. Nature of emergency (obtain specifics such as fire, roof fall, explosion, etc.):

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

3. Date and time of occurrence: \_\_\_\_\_

4. Company name and mine name: \_\_\_\_\_

\_\_\_\_\_

5. Name of person calling: \_\_\_\_\_

6. Telephone number: \_\_\_\_\_

7. Number of persons unaccounted for: \_\_\_\_\_

8. Number of fatalities and injuries: \_\_\_\_\_

9. Have recovery operations begun? \_\_\_\_\_

10. Any additional pertinent information the caller may be able to provide:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
